Hector Osuna

Product Designer · Interaction, design systems and visual craft

Dallas–Fort Worth, TX · Open to relocation · hosuna23@gmail.com · hectorosunadesign.com

PROFILE

Product designer with **10+ years** designing responsive digital experiences, scalable design systems and brand-led interfaces for enterprise and consumer audiences. I take work from early concept through research, prototyping and pixel-level polish to developer handoff, then use analytics, heatmaps and usability testing to refine what ships. I use AI-assisted tools to widen exploration and speed production, and I am currently exploring 10-foot, focus-driven design through a self-initiated tvOS concept.

−55% bounce rate · **+338%** organic traffic · **+45%** campaign engagement · **80%** faster pages · **REBRAND® 100**

EXPERIENCE

UI/UX Designer (Contract)

May 2024 – Present

NTT DATA, for ADI Global Distribution and Resideo · Plano, TX

- Designed a scalable Figma component system for vendor brand pages: **6 component families**, each with desktop, tablet and phone variants, replacing 18 separately maintained modules.
- Studied Mouseflow heatmaps and Google Analytics to find where people struggled, then shipped a sticky in-page navigation (**+25% clicks** on Featured Products) and a reordered page flow (**+15% click-through**).
- Wrote asset specifications, intake guides and design documentation so vendors and engineers could build consistent pages across every screen size.
- Present design rationale to marketing stakeholders and vendor partners and iterate through critique, from first sketch to production proofs.

Senior Graphic and UI Designer (Contract)

Feb 2024 – May 2024

Caliber · Lewisville, TX

- Designed landing experiences and digital campaign assets with stronger hierarchy and layout, increasing engagement by **45%** and customer interaction by **20%**.
- Functioned as art director for three lines of business: set up the creative request, review and approval process and served as point of contact for three senior marketing directors.
- Created a color system that distinguishes Auto Care, Collision and Auto Glass, and documented logo guidelines for two technician-training programs.

Senior Graphic Web Designer, UI/UX

Oct 2021 – Aug 2023

ADI Global Distribution · Irving, TX

- Designed responsive landing pages and interactive web elements in Figma, increasing landing-page engagement by **25%**.
- Improved responsive layouts and accessibility, reducing bounce rate by **55%** and raising user satisfaction by **15%**.
- Ran usability tests and analytics reviews across desktop and mobile, then refined content and layouts, increasing interactions and conversions by **10%**.
- Maintained shared components, imagery and visual standards across marketing touchpoints with cross-functional teams.

Senior Graphic Web Designer, UI/UX

Jan 2021 – Oct 2021

CareerStaff Unlimited · Irving, TX

- Led UX strategy for a website redesign: persona research for three audiences and an information architecture that reduced **10 top-level menu items to 3 audience paths**.
- Created wireframes and clickable prototypes, folded in usability feedback and prepared designs for developer handoff.
- Cut page load time by **80%** and designed an RFP landing page that helped secure **two client contracts**.

Senior Graphic and UI Designer, UI/UX Jun 2015 – Jan 2021
Working Solutions · Dallas, TX

- Led visual and digital design for an enterprise rebrand recognized by the **REBRAND® 100 Global Awards**: logotype exploration, identity system, B2B website and a 12-layout presentation system.
- Used analytics and heatmaps to restructure navigation and content hierarchy, increasing web traffic by **26%**, searchability by **87%** and organic traffic by **338%**.

SELECTED CONCEPT AND STUDY WORK

FitNudge for the big screen, tvOS concept (2026). Self-initiated 10-foot experience: focus-driven navigation, Siri Remote interaction model, motion specification, accessibility plan and a working interactive prototype.

FitNudge mobile, UT Austin UI/UX certification (2025). Survey research (n = 20), personas, information architecture, design system and high-fidelity Figma prototypes.

SKILLS

Product design Interaction design, UX architecture, information architecture, prototyping, design systems, multi-device and responsive UI, accessibility (WCAG), usability testing, analytics-informed iteration

Visual and motion Typography, layout, visual hierarchy, iconography, motion and micro-interactions, presentation design

Tools Figma (components, variants, Auto Layout, prototyping), FigJam, Illustrator, Photoshop, InDesign, After Effects, Premiere Pro, HTML/CSS/JavaScript, WordPress, Google Analytics, Mouseflow, AI-assisted ideation and production

EDUCATION

University of Texas at Austin UI/UX Designer Certification, 2025

The Art Institute of Dallas Graphic and Web Design, 2013 – 2016

University of Texas at Dallas Chemistry coursework, 2006 – 2009

Institut Européen de Français French, B2 certification, 2012
